# I'll Show You Mine If You Show Me Yours

## What is it?

When you are running a small business, every penny counts. One of the biggest potential cost savings is when it comes to fleet management. We are so convinced that we can provide you with a better price that we are prepared to put our money where our mouth is. Simply follow the instructions below and we will put a credit worth up to 50%\* of your estimated savings onto your account upfront to get you started.

## How does it work?

Before the creation of your new account, provide your local Sixt account manager with your current rate sheet and a 6-12 month booking history from your current supplier and we will beat those rates. In addition to beating the rates, we will also look at the total amount that we will save you and will put up to 50%\* of this amount as a credit up-front onto your account to use from day one. It doesn't get any better than that! Give us a try and see what Sixt can save you!
